Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim condensed consolidated financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. During the half-year ended 30 June 2017 the Group had several long-term cash-settled and equity-settled share-based payments arrangements.

Long-term incentive plan adopted in 2014

In August 2014, the Group's Board of Directors approved an employee long-term incentive plan (the "Incentive Plan"). Under the conditions of the Incentive Plan, certain employees at senior levels are entitled to share-based compensation, so-called "phantom" shares, that are to be granted by the Group in annual tranches over 2014-2016. The phantom shares vest on 31 December 2016 contingent on continued employment with the Group and certain established targets relating to the increase in the Group's market value. The phantom shares vest automatically upon a successful initial public offering by the Group or upon the sale by the Group's controlling shareholder of a certain stake in the Group to a third-party investor. Upon redemption of phantom shares, a participant receives either a respective number of shares in the Company or cash consideration computed on the basis of the market value of one ordinary share of the Company.

Long-term incentive plan adopted in 2016

In September 2016, the Group's Board of Directors approved a new employee long-term incentive plan (the "Incentive Plan 2"). Under the conditions of the Incentive Plan 2, certain employees at senior levels are entitled to share-based compensation ("phantom" shares), that are to be granted by the Group in annual tranches over 2016-2018. The phantom shares vest on 31 December 2018 contingent on continued employment with the Group and certain established targets relating to the increase in the Group's market value. The phantom shares vest automatically upon a successful initial public offering by the Group or upon the sale by the Group's controlling shareholder of a certain stake in the Group to a third-party investor. Upon redemption of phantom shares, a participant receives either a respective number of shares in the Company or cash consideration computed on the basis of the market value of one ordinary share of the Company. This settlement choice is upon the Group's discretion. Based on the Group's plans and historical experience, management expects that the settlement shall be done in cash. Thus, the Incentive Plan 2 is accounted for as a cash-settled share-based plan.

Long-term incentive plan adopted in 2017

In January 2017, the Group's Board of Directors approved a new employee long-term incentive plan (the "Incentive Plan 2 for the General Director"). 17. COMMITMENTS AND CONTINGENCIES

Operating leases

The Group leases retail space through lease contracts which expire in various years through 2023. Although the store leases are generally long term, all of the store lease contracts contain provisions that enable the Group to cancel the lease provided the Group either pays a penalty, which typically consists of a payment equal to approximately two to three months rent or sends an advance notice to the lessor. Meanwhile, the contracts which are more economically beneficial to be continued by the Group rather than to be canceled are classified as non-cancellable under IAS 17.

Future minimum rental payments (w/o VAT) under operating leases classified as non-cancellable for IAS 17 purposes, as at 30 June 2017 and 31 December 2016 are as follows:

	30 June 2017	31 December 2016
During one year	8,117	7,578
More than one year, but more than 5 years	42,920	41,044
More than 5 years	19,234_	12,409
	70,271	61,031

Legal

In the ordinary course of business, the Group may be a party to various legal and tax proceedings, and be subject to claims. In the opinion of management, the Group's liability, if any, in all pending litigation, other legal proceeding or other matters, will not have a material effect on the financial condition, results of operations or liquidity of the Group.

Taxation

Laws and regulations affecting businesses in the Russian Federation continue to change rapidly. These changes are characterized by different interpretations and arbitrary application by the authorities. Management's interpretation of such legislation as applied to the activity of the Group may be challenged by the relevant regional and federal authorities. The tax authorities in the Russian Federation frequently take an assertive position in their interpretation of the legislation and assessments and as a result, it is possible that transactions and activities may be challenged. As a result, significant additional taxes, penalties and interest may be assessed. Under certain circumstances reviews may cover longer periods. Where uncertainty exists, the Group has accrued tax liabilities as management's best estimate of the probable outflow of resources which will be required to settle such liabilities. Management believes that it has adequately provided for tax liabilities based on its interpretations of tax legislation. However, the relevant authorities may have differing interpretations, and the effects could be significant.

Operating environment

Emerging markets such as Russia are subject to different risks than more developed markets, including economic, political and social, and legal and legislative risks. Laws and regulations affecting businesses in Russia continue to change rapidly, tax and regulatory frameworks are subject to varying interpretations. The future economic direction of Russia is heavily influenced by the fiscal and monetary policies adopted by the government, together with developments in the legal, regulatory, and political environment.

Because Russia produces and exports large volumes of oil and gas, its economy is particularly sensitive to the price of oil and gas on the world market. During 2014-2015 and the 1st quarter of 2016 the oil price decreased significantly, which led to substantial decrease of the Russian Ruble exchange rate.

Starting from 2014, sanctions have been imposed in several packages by the U.S. and the E.U. on certain Russian officials, businessmen and companies.

In addition in the first quarter of 2015 two international credit agencies downgraded Russia's long-term foreign currency sovereign rating to the speculative level with the negative outlook.

The above mentioned events have led to reduced access of the Russian businesses to international capital markets, increased inflation, economic recession and other negative economic consequences. The impact of further economic developments on future operations and financial position of the Group is at this stage difficult to determine.

18. EVENTS AFTER THE STATEMENT OF FINANCIAL POSITION DATE

In July, the Group made a dividend payment to its shareholders thus settled liability that was recognized in the interim condensed consolidated statement of financial position as at 30 June 2017 (Note 14).

On 1 August 2017, the Group's Board of Directors approved a new employee long-term incentive plan (the "Incentive Plan 3"). Under the new plan, which covers the three-year period to February 2020, the third anniversary of the Company's initial public offering, senior management in continuing employment by the Company as of that anniversary will be entitled to the Company's shares from a share pool equivalent in value to up to 2% of the increase in the Company's stock market value (including dividend payments) over the period. The Group's Board of Directors may change the settlement method of the incentive plan (either partially or fully) from the Company's shares to cash. The Incentive Plan 3 will include key employees of the Company.

The new incentive plan also stipulates cash compensation (that is not linked to the Company's shares) to key management personnel of the Group in the total amount of approximately RUB 500 million, out of which RUB 250 million are to be paid in January 2018. Amounts and timings of any further payments are yet to be determined by the Company's Board of Directors.

The Group has evaluated subsequent events through 23 August 2017, the date on which the interim condensed consolidated financial information was approved.
